Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 4-8 and 10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which Applicant regards as the invention. The term "outlet container" (claim 10, line 2) is vague, and indefinite as to the structural element intended. Also, the term "accommodating the cartridge" (claim 10, line 8) is vague, and indefinite as to the structural interrelationship between the recited cartridge and the recited regenerating device. If Applicant is attempting to recite that the cartridge is located in the recited chamber (3), than claim 10 should be so amended. Otherwise, it is not clear where the recited cartridge is located with respect to the recited regenerating device, particularly since Applicant has positively recited (see claim 10, line 7) that the inlet of the cartridge "is connected" to the outlet of the reservoir in the regenerating device. Furthermore, the designation of reservoir as "21" in line 6 of claim 10 is deemed to be misdescriptive, since the reservoir has been labeled as element 2 in the drawings. Claim 7 is also deemed to be misdescriptive, since it appears that the filter 11 is located upstream of outlet 10 of reservoir 2 (see Fig. 2), and not situated "between the outlet (10) of the reservoir (2) and the inlet (6) of the chamber (3)" as recited in this claim.

Claims 4-8 and 10 would be allowed if rewritten or amended to overcome the above rejection under 35 U.S.C. § 112 because the references of record do not show or fairly suggest an ion exchange cartridge having an inlet connected to a regenerating device of the type recited.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
